

## SMITH CLAIMS FIRST HONORS IN AIR DERBY

Flying Time is Held to Be 30 Minutes Less Than That of Lieut. Maynard; Official Check to Decide Winner

Second Leg of Race to Start Tomorrow; Parson-Pilot, in Spite of Wife's Entreaties, to Start for Mineola Tues.

BY UNITED PRESS. LEASED WIRE TO TRIBUNE. SAN FRANCISCO, Oct. 12.—Captain H. C. Drayton, driving a De Havilland four No. 47, arrived at the Presidio today at 11:41:30. He left Mineola Field Wednesday at 9:16 a. m.

Drayton is second of the eastern fliers to finish the first leg of the big transcontinental air race.

WASHINGTON, Oct. 12.—The second leg of the transcontinental air race will be contested, it was definitely announced this afternoon at the office of Major-General Mencher, chief of the air service of the army.

The fliers will start their return trip not sooner than forty-eight hours nor longer than ninety-six hours after landing. This time will be made in the event that such starting time will not permit the aviator to arrive at the next station before sundown.

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE. SACRAMENTO, Oct. 12.—After conferring over the telephone with officials of the air service in San Francisco the control officer at Mather field decided to hold Captain Drayton until informed that a fog at San Francisco had lifted.

SMITH CLAIMS FIRST HONORS.

MINEOLA, L. I., Oct. 12.—Captain Lowell H. Smith, who arrived here from San Francisco in the transcontinental air race at 10:52:42 o'clock today, may have beaten the flying time of Lieutenant B. W. Maynard for 370 miles across the country. According to his log book, Smith's actual flying time was 24 hours and 30 minutes against Maynard's flying time of 24 hours 59 minutes and 41 seconds.

Smith's time was turned over to the officials upon his arrival, but up to early this afternoon had not been declared official.

Smith immediately registered a formal complaint with Colonel Miller, commandant of Roosevelt field, alleging that he had been held up four hours and a half from San Francisco to Mineola on no other apparent reason than to wait until Major Carl Spatz and Lieutenant E. C. Kiel, who reached Mineola Saturday morning, could come up with him. These delays, Smith said, were at Rawlins, Wyo., Salt Lake City and Rock Island, Ill., an hour and a half each.

Smith lost a propeller just before reaching Cleveland, which forced him out of the lead of the eastbound competitors.

FOUR AVIATORS RESUME FLIGHT.

CHICAGO, Oct. 12.—After a day's rest and with more favorable weather, four nearly entire course, ferry aviators today resumed their flights in the transcontinental aerial derby.

Clear, cold weather with moderate winds was reported from most of the control stations with the exception of those in Nebraska, where foggy weather interfered with the schedules of several of the fliers.

Captain Lowell H. Smith, who arrived at Mineola at 8:50 a. m. today, was the third flier to complete the first half of the trip from San Francisco. He left Rochester at 7:40 a. m. and made the trip to Mineola in what is believed to be record time. Two other fliers are expected to reach Mineola before the end of the day. They are Lieutenant R. S. Worthington and Lieut. H. E. Queens, who left Cleveland early this morning.

Captain Harry Drayton left Reno headed for San Francisco early in the day with indications that he would be the second flier to finish among the west-bound contingent.

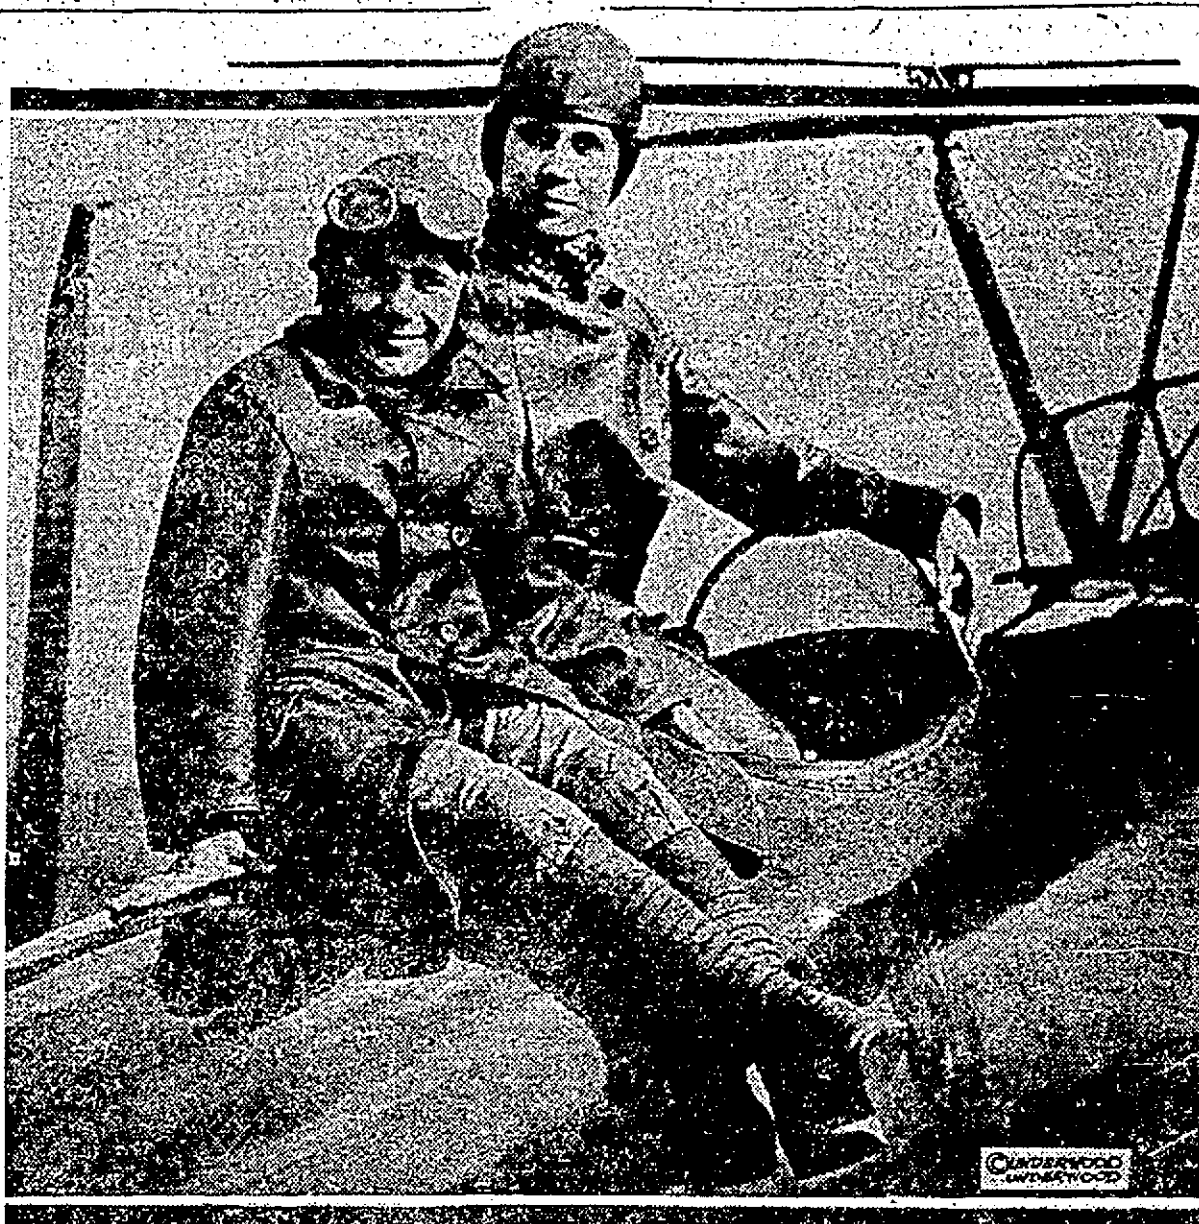

Others in the west-bound group who expected to reach San Francisco today were Lieutenant L. S. Webster, Captain J. O. Donaldson and Lieutenant Alexander Pearson, Jr., who left Salt Lake City, and Captain Harry Smith and Lieutenant R. M. Manzberg, who left Green River for Seattle coast.

Eleven other fliers left Cleveland early in the day, while four others hopped off from Buffalo headed for San Francisco. Half a dozen fliers passed one another in Chicago during the evening. A dozen fliers were strung out between Chicago and Salt Lake City, racing toward the Pacific coast. All the fliers expect to reach their destinations before tomorrow night.

PASTOR AVIATOR ATTENDS CHURCH.

SAN FRANCISCO, Oct. 12.—Lieutenant R. W. Maynard, winner of the Atlantic to the Pacific flight, is quietly resting, awaiting the coming of his brother racers. Yesterday morning he slipped into the first Baptist Church on Geary street but the congregation recognized him and he was forced to the pulpit to make his first public address as champion aviator in the United States. Last night he escaped from the admiring throng at the Palace to again attend church. Maynard was urged today by Mrs.

MRS. SEYMOUR E. F. COX and her 11-year-old son, SEYMOUR, JR., photographed immediately after landing at Mineola, L. I., flying field after a flight from Houston, Texas, to place son in Raymond Riordan School at Highland.

## BARRED FROM N.Y. SCHOOLS, FLYING BOY LOOKS WEST

HIGHLAND-ON-THE-HUDSON, N. Y., Oct. 12.—Unless they let me in their school, here pretty soon, mamma and I are going to get peevish and fly away from off New York state for California.

This complained 11-year-old Seymour Cox, who with his mother flew all the way from Houston, Texas, to this place so that the little might participate in a local school. They flew in an airplane, and arrived here just too late for Seymour's entrance to the halls of learning. Mrs. Cox is rather irritated at the headmaster who is consulting all sorts of higher authorities before saying whether or not he's going to allow the little boy to enter the school. "Yes, Seymour's right," said his mother, "unless he is allowed to matriculate here we're going to try a cross-country flight. We'll not try any record-breaking flying but will make the national trip leisurely with frequent stops. Having come from Texas to New York via plane—a distance of 3000 miles—it is no trick at all to fly across the continent—and then back to California."

Mrs. Cox is the wife of a wealthy Houston oil operator. Unfavorable weather held her machine up for some time—thus making the little boy late for school.

Decision on Steel Strike Not Reached

WASHINGTON, Oct. 12.—After meeting for three hours behind closed doors, the committee of fifteen of the National Industrial Conference adjourned today without a decision on the question recommending arbitration in the steel strike.

## PROFESSORS MEET TO URGE CLOSER U. C. AFFILIATION

BERKELEY, Oct. 12.—Further democratization of the academic senate at the University of California is occupying the attention of the members of the faculty of that institution at a special meeting called this afternoon in Wheeler Hall. Recommendations adopted at the last week of the senate calling for a closer affiliation between the faculty and the administration have passed out of their control.

The allies assert that unless Germany offers a more satisfactory explanation the allies cannot accept the conditions of the armistice.

Today's meeting, it is understood, has been called principally to discuss the selection of a new president to be considered by the university regents at a meeting tomorrow.

## ALLIES AGAIN TELL GERMANS TO QUIT BALTIC

Ultimatum on Withdrawal is Not to Be Cancelled Until Supreme Council Learns Evacuation is Made Normal

Note Asks Why Von der Goltz "Was Sent Back Deliberately to Scene of Atrocities;" Letts Still Defending Riga

PARIS, Oct. 12.—Charges that the German government has delayed deliberately the withdrawal of General von der Goltz's forces from the Baltic region are contained in the most recent note to Berlin from the allies and associated powers.

The note, made public today, declares that until Germany undertakes the evacuation and pushes it with all desirable quickness, the allies will maintain the coercive measures of the note of September 20, when the blockade was threatened.

The allies point out that the situation in the Baltic suddenly has become more critical and declare that Germany will be held fully responsible in executing the order for evacuation. An allied commission will be appointed to superintend the withdrawal, the Germans are told, and the measures provided for in the ultimatum will not be modified until that commission informs the supreme council that the evacuation is progressing normally.

WHY WAS LEADER SENT RIGHT BACK?

The allies inquire why Von der Goltz, who has been punished for his role in the German assault, is sent back to the scene of his crimes. "It is difficult not to believe," says the allied note, "that the German government has been calculated to lead to the very results which the German government now affect to deplore. It seems, indeed, impossible otherwise to explain the refusal of Von der Goltz, who has been their (the Germans) official instrument in creating the present situation in open defiance of the allied and associated powers."

## CONDITION OF WILSON GRAVE ORDERED TO REST FOR INDEFINITE PERIOD

President Reported Suffering from Cerebral Lesion Which Has Resulted in Two Slight Paralytic Attacks

McADOO DIRECTS AFFAIRS OF STATE

WASHINGTON, Oct. 12.—The statement of President Wilson's physical condition issued at 12:30 p. m. today, said:

"The President's condition remains the same as for the past several days. His temperature, with the exception of one day, pulse and respiration, heart action and blood pressure are normal and have been so since the onset of his illness. His kidneys are functioning normally."

WASHINGTON, Oct. 12.—Cool weather is aiding President Wilson's recovery, it was said today at the White House. The President's condition is such that danger of a setback in his complete rest for an indefinite period.

LANSING PRESIDES AT CABINET SESSION

WASHINGTON, Oct. 12.—The usual weekly meeting of the President's cabinet will be held at the White House tomorrow with Secretary Lansing presiding.

A discussion of whether President Wilson is well enough properly to perform the duties of the presidency developed at an executive session of the senate foreign relations committee today when action was sought on a resolution requesting certain information regarding Chinese-Japanese relations.

A vote on the resolution and several other measures relating to foreign affairs was postponed indefinitely, on the objection of Senator McKim.

The resolution was introduced by Senator Poinsett, Republican, Washington, and would call upon the President for a copy of a statement said to have been sent to the state department last week by the American minister at Peking, going into Japanese-Chinese relations.

Senator William is said by committee members to have made a vigorous protest against sending such a request to the White House in the present circumstances. It was understood that the resolution of Mr. McKinley's illness was cited, the senators objecting declaring that in that instance the senate refrained as a matter of courtesy from raising questions requiring action in foreign relations.

To this same members of the committee were said to have replied that the condition of Mr. McKinley was known to the senate with the exact situation regarding President Wilson's health now was the subject of wide speculation.

There was no effort formally to raise the question of Mr. Wilson's disability under the circumstances. Besides the Poinsett resolution, the committee majority had expected to pass a resolution by Senator King, Democrat, Utah, expressing it as the sense of the senate that Thrace should be awarded to Greece, and one by Chairman Lodge.

There is a general feeling in the international conference to telegraph and wireless communication.

PROVIDENCE, R. I., Oct. 12.—The Providence Journal said today:

President Wilson is suffering from a very dangerous cerebral hemorrhage, following two slight strokes, the first of which came at Pueblo during his western trip, and the second on the morning of October 1, after his return to Washington. There is partial paralysis and brain lesion of such a character that Mr. Wilson has suffered several periods of aphasia, although, according to the information received by the Journal from a high government official, these have been less frequent in the past three days.

From this same source it is learned that even if the President should show signs of improvement by the gradual absorption of the hemorrhage, any mental strain to which he would be subjected by the attempt to take up public matters would mean an immediate recurrence of the earlier symptoms and a more dangerous condition than at present exists.

It is also declared that there is no possibility that Mr. Wilson will be able to perform the functions of his office, either in the immediate or the remote future, and that while the medical bulletins with regard to the improvement in his physical condition, state the facts, the physicians in attendance are agreed that any mental strain would mean an immediate recurrence of the earlier symptoms and a more dangerous condition than at present exists.

Officially of the government who know the facts told the Journal today that the question of the performance of the President's official functions either by Vice-President Marshall, or in some other way, has become vitally urgent. They said that the necessity for action by the President in matters requiring extreme mental concentration and the exercise of judgment upon involved and difficult problems cannot be postponed and that it is impossible to contemplate any suggestion that Mr. Wilson will be able for many months to come, even under the most favorable circumstances, to consider any public matters whatsoever.

McADOO DIRECTS NATIONAL AFFAIRS

A report which has reached certain large banking and business interests in Washington and New York during the past few days, and which up to the present time has gone unchallenged, is that former Secretary of the Treasury William G. McAdoo is directing and overseeing government policies along the lines known to be approved in the past by the President.

It is stated from these sources that on the arrival of Colonel House from France he will join with Mr. McAdoo in the work. It is understood while there was a tentative agreement reached at the meeting of the cabinet last Monday, that the cabinet should itself assume control of government affairs from the executive side, the law officers of the government have been able to find nothing in the Constitution conferring such authorization. A similar difficulty has arisen in connection with the status of Vice-President Marshall because of the fact that the Constitution is silent on the manner in which the inability of a President shall be determined or by whom it shall be determined.

COLONEL HOUSE HOME, CONFIDENTIAL BY LANSING.

NEW YORK, Oct. 12.—Suffering from an attack of gallstones, complicated by a severe cold, Colonel E. M. House, confidential advisor to President Wilson and member of the American peace delegation, who arrived here yesterday from France, is under seclusion at his home today.

Colonel House hoped by a week's rest to regain his health sufficiently to be able to go to Washington. In a brief interview with newspaper men before he went to his home, Colonel House was asked to comment on reports that he planned to resign his position with diplomatic affairs. He replied:

"That all depends upon my health. I intend to serve as long as I am physically able."

# BERKELEY TO FIGHT HIGHER WATER RATES

BERKELEY, Oct. 13.—That Berkeley will probably fight a decision of the railroad commission which imposes a charge of \$13,000 on the city for fire protection was the unofficial statement of city officials today.

Instead of benefiting Berkeley as was at first thought on Saturday in a partial report of the commission's decision granting the Eastbay Water Company increased rates, the mandate of the commission will force the college city to raise an additional sum of \$28,000 not provided for in the budget to pay for fire hydrant service. In addition all consumers of the city will pay a sur-charge of 10 per cent upon all individual bills rendered by the company.

City Attorney Frank C. Cornish and Mayor Louis Bartlett are today perusing the decision preparatory to announcing a course which the city will follow. Although no official statement was forthcoming it is certain that Berkeley will not remain passive to such an agreement and will join with other Eastbay cities in fighting the increased hydrant rate. Two of the charges provided for the decision, those for sewer flushing purposes and street sprinkling, Berkeley does not incur at all, according to city officials, but it is charged nonetheless.

If a rehearing is denied by the commission, Berkeley will probably file its appeal to the supreme court and will "renew" the payment of all charges over the sum \$7000 now allowed for fire protection purposes in the budget.

Berkeley has no fire protection at present adequate to a city of its size," declared City Attorney Cornish this morning. "Three-fourths of the city is protected by two-inch water pipes. That such pipes are of insufficient value even the railroad commission recognizes, because it fails to make provision for a payment of rates on them. As a result of this inadequacy Berkeley is forced to pay higher insurance rates."

Action of the council on the commission's decision is expected at tomorrow's meeting.

In the meantime the decision holds in abeyance all proposed increases in salaries for policemen and firemen, a sum of approximately

## Interior Affairs of France Placed on Basis of Peace

(By Associated Press)  
PARIS, Oct. 13.—Decrees published in the official Journal this morning place the interior affairs of France on a peace basis, ending the state of siege, lifting the censorship and transferring jurisdiction over police affairs from the army to prefectures.

To end the state of war with Germany it is still necessary to deposit in the foreign office a text of the treaty signed by President Poincare, which will be filed with the ratification document, signed by President Ebert of Germany, which already is in hand. To this will be added the ratification documents signed by the kings of England and Italy. The exchange of ratifications will occur at the foreign office without ceremony. The British and Italian ratifications have not as yet been received but are expected at any moment.

\$22,000 being needed for this purpose which is not available at present.

## ALAMEDA AGAINST NEW WATER RATES

ALAMEDA, Oct. 13.—City Manager C. E. Hewes said this morning that he favored the Eastside municipalities carrying to the supreme court the Railroad Commission's ruling on fire hydrant rates. The city manager said that the Railroad Commission had no authority to compel a water company to install fire hydrants or to compel a water company to furnish fire protection of any kind. Under this point, it seemed questionable if the commission had the power to compel a municipality to pay for a fire protection which a water company was not compelled to give.

Hewes said that practically none of the cities had made provision for paying the extra water money. When it was decided to fight the matter the tax rate was lowered and the money was not provided in Alameda. If the money now has to be raised it will probably have to come from the street department, principally, and the draining of this department will spell disaster to all projected street work. The street program had previously been reduced to almost negligible proportions because of insistent demand that the tax rate be hammered down as low as possible.

The cities operating under a dollar limit tax rate are in still worse condition. With a dollar worth but 50 cents, the financial conditions prevailing in the dollar limit municipalities has been serious for years. These cities are apparently up against a problem not easy of solution. It is probable that charter amendments and freehold charters will have to be put through by several municipalities to meet new demands and conditions. The Alameda city manager is now in communication with the various attorneys representing the Eastside cities and a conclusion will probably be reached this week, determining whether or not the ruling of the Railroad Commission will be assailed through the supreme court.

# STEEL STRIKE PROBERS MAY RESUME WORK

BY INTERNATIONAL NEWS SERVICE. LEAF WIRE TO TRIBUNE.

PITTSBURGH, Pa., Oct. 13.—The fourth week of the steel strike in the immediate Pittsburgh district started today with practically no change in operating conditions over last week. Even though many of the plants had small forces, all resumed work.

Following the visit of five members of the Senate committee on education and labor, the strikers' leaders were preparing today to press their suits to lift the ban on strikers' meetings. Attorney W. F. Rubin, of the strikers' committee, also indicated that action might be taken against activities of the state police. The Senate probers returned to Washington convinced that Americanization of the foreign element would go a long way toward allaying the industrial unrest. During the hearings here the investigators frequently expressed amazement and concern over the high proportion of WASPish allies among the strikers. Senator Walsh suggested that there should be a law compelling immigrants to learn English within five years under penalty of the law.

Whether the senators will return here to continue the hearings is undetermined. Senator Kenyon said the question would be determined in Washington this week.

YOUNGSTOWN, O., Oct. 13.—Secretary S. T. Hammersmark of the local strike committee announced this afternoon that "a high official" of the Republican Iron and Steel Company is seeking a conference with the union. Further details were not forthcoming.

## CENSORSHIP DENIED.

WASHINGTON, Oct. 13.—Denial that a military censorship had been established at Gary, Ind., where federal troops are on duty because of the federal steel strike, was made in a statement received at the War Department today from Major General Wood, commanding the Central Department, with headquarters at Chicago.

"No press censorship has been established at Gary," said the message.

Organized labor's proposal that the national industrial conference arbitrate the nation-wide steel strike was further considered today by the conference steering committee with the hope that a report could be made to the conference when it resumes its labor tomorrow.

## AUSTRIA FACES MONEY CRISIS; PREPARE BONDS

(Exclusive cable to the International News Service and London Daily Express.)  
VIENNA, Oct. 13.—Austria is in the throes of a financial crisis and the resignation of Dr. Schumpeter, the financial minister, is foreshadowed.

It is proposed to meet the deficiency as far as possible by a levy on capital payable in war loan bonds at their face value.

Dr. Relsch, a well known Austrian banker, who may succeed Dr. Schumpeter as financial minister, suggests that the situation be relieved further by a bond issue to be handled by British, American, Dutch and Belgian banks.

If this issue is floated it may be for 120,000,000 pounds sterling (approximately \$540,000,000).

# SCHOOL BOND CAMPAIGN IS MAPPED OUT

A whirlwind campaign for the remaining eight days before the school bond election of October 21, was perfected today by the school department. Meetings will be held in various districts every day until the close of the campaign and every effort made to acquaint the public with the needs of the schools and the remedies proposed by the bonds.

"It is not a matter of politics," is the slogan of the school department, as voiced through "Our Public Schools," the official organ of the department.

The reasons for the issue are summed up in the following:

"Nearly every school in Oakland is packed with children and surrounded by filthy portable shacks—is a mute argument proving the need of funds for new schools."

Here are other facts that the school department sets forth as reasons for the passage of the bonds:

More than 10,000 pupils are now packed in overcrowded rooms, with from 45 to 60 in a room.

Some 3000 children attend school in portable classrooms.

Nearly fifty more portables have been ordered to care for this year's addition to the enrollment.

About 2000 pupils dropped out of the schools last year because of discomfort, overcrowding or plain lack of interest caused by present conditions.

Some 4543 more pupils were engaged last year than the year before. The places of the missing 2000 children were filled twice over.

Oakland's school population is nearing the 40,000 mark. The Oakland school buildings were designed to accommodate about half that number.

Comfortable housing now clustering about every school building are temporary makeshifts; yet there are not even enough portables.

Many of the Oakland school buildings are antiquated wooden structures. The fire chief has called them firetraps. Yet, unless new schools are built, they cannot be eliminated without making congestion worse in other schools.

A Travelling Man's Experience.

You may learn something from the following by W. H. Ireland, a travelling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the Colic and Diarrhea Remedy and to Pancho Mulla in the latter's campaign against Victoriano Huerta. He subsequently returned to the United States and gave several exhibition flights in machines of his own construction."

"No press censorship has been established at Gary," said the message.

Organized labor's proposal that the national industrial conference arbitrate the nation-wide steel strike was further considered today by the conference steering committee with the hope that a report could be made to the conference when it resumes its labor tomorrow.

## MRS. MURPHY WORE NO SHOES FOR TWO YEARS

Los Angeles Woman Gets Relief From Serious Rheumatic Condition.

"I had to be cared for just like a baby before I began to take Tanlac and now I can't say enough to praise it for what it has done for me," was the earnest statement of Mrs. Alice Murphy, 1501 Pennsylvania avenue, Los Angeles.

When the Tanlac representative called at Mrs. Murphy's home he found her busy about her household duties. She remembered that she hadn't been able to attend to her household duties for two years until she started taking Tanlac. "Two years ago I had a very severe attack of muscular rheumatism," she continued, "and no one could tell the pain and torture that I have suffered since that time. My hands were so swollen until I could hardly work my fingers and I wasn't able to put on a pair of shoes because my feet had swollen so. All those two years ago I had a very severe attack of muscular rheumatism. I was so bad that I had to make the children stay out of the room where I was and I couldn't stand the least noise. Sometimes I would have dizzy spells and everything seemed to spin around and then I would have sharp pains and a chills and fever afterwards. I was so helpless that I had to be helped by Tanlac and went right on and got me a bottle. By the time I had taken the medicine four or five days I saw that it was helping me and I kept right on taking it and now after taking several bottles I am so much better and I am sleeping every night and feel that in a little while Tanlac will get me back to where I was before I was sick. I am doing my housework again in my home of five rooms and three children, and it is the first time in two years that I have been able to get around at all and wear my shoes. I am telling everybody how much good Tanlac did me and that it is a fine medicine. Tanlac is sold in San Francisco and Oakland by The Owl Drug Company stores.—Advertisement.

## CHECK ARTIST IS NABBED BY CLERK

Because he didn't know that a jewelry salesman is a close second, sometimes, to Sherlock Holmes as a detective, J. S. Hayes and identical twin brother, who were both in the jewelry business, were nabbed by a clerk at the Hotel Oakland, purchased a diamond from him Saturday, paying with a check which was later found to be worthless. Light went to the Hotel Oakland to find that the man had left. Examining the telephone records, the jeweler found a call from King to Sacramento, trailed him there and picked up another call in a Sacramento hotel, to Placerville. Here Licht and Sheriff R. R. Hand captured the prisoner. He is being held in Placerville for the San Francisco authorities who have warrants based on a check said to have been passed on a clothing house there. The Oakland jeweler recovered the diamond.

## CHILDREN MATCHES FIRE

# KING AS PRINCE WAS DEMOCRATIC IN HIS MANNER

BERKELEY, Oct. 12.—The democracy of King Albert of Belgium is not an outcome of the war, but a natural asset of the visiting ruler, according to Mayor Louis Bartlett of Berkeley, who holds the position of counsel to the Belgian consulate in San Francisco.

According to Mayor Bartlett, when King Albert, then several places removed from the throne, visited the bay section 21 years ago he did it with the same naturalness and good comradeship which is marking his present tour. At that time Leon Guislain of Alameda was Belgian consul in San Francisco. The new ruler of Belgium visited Guislain's office across the bay, dropping in casually. He was taken across the bay to the Guislain home, where a small son of the host was waiting at the depot to meet his father.

"Tell your mother we have a guest for dinner," said the consul, and the lad bicycled ahead, not knowing who the visitor was. The distinguished visitor and his host walked to the latter's residence, where the prince sat down to take "pot luck" with the family. After that he spent a quiet evening at the Guislain home, chatting and laughing with the family.

# N. Y. FOOD AND COAL SUPPLY THREATENED

BY INTERNATIONAL NEWS SERVICE.  
LEASED WIRE TO TRIBUNE.

NEW YORK, Oct. 12.—The strike of upwards of 50,000 longshoremen and other harbor workers, which completely paralyzed traffic in the port and threatened the city with a dangerous food and fuel shortage, may end within forty-eight hours, according to predictions made by union officials today.

T. V. O'Connor, president of the International Longshoremen's Association, and John F. Kelly, chairman of the strike committee, said that delegates from fifty-four locals had voted to urge the men to return to work at once, leaving their claim to higher wages to be settled December 1.

A wave of cold weather has increased the pinch of the coal shortage.

The first action by the government as a result of the longshoremen's strike was seen yesterday when, in accordance with Secretary of War Baker's orders, troops were hurried from Camp Merritt to Hoboken to help unload the transport Northern Pacific, among whose passengers were Colonel E. M. House and foreign delegates to the chamber of commerce conference.

New York's latest strike, that of 11,000 members of the International Brotherhood of Teamsters, Chauffeurs and Helpers, tied up the principal railroad terminals of the greater city today.

The strikers' demands include a flat increase of \$25 a month, an eight-hour day and a week's vacation every year.

# Four Mayors to Welcome King Women Plan Banquet for Queen

Mayors of four bay cities will welcome King Albert, Queen Elizabeth and the Duke of Brabant—Belgium's royal heads—tomorrow morning at Oakland's mole. Oakland, Berkeley, Alameda and San Francisco will offer the greeting handshake of northern California through their executive officers when the visitors step from their car into a whirl of entertainment and hearty welcome.

Belgian Consul-General Drion, Brand Whitlock, our ambassador to the heroic small Belgian nation, General Liggett, Admiral Rodman, Admiral Jayne and a few other guests will aid in extending to the foreign monarchs a real American greeting.

Although the army and navy—American municipal civic government—the diplomatic service and this nation's women will all be represented in this first welcome to the resounders through San Francisco's streets from the people of western North America will surpass by far anything ever accorded a foreign monarch in the West. Arrangements at the Ferry building are practically the same as those prepared for President Wilson's coming. The military will be present and Belgium's flag of black, red and yellow will fly everywhere beside the colors of her friend—America. The regular route will be taken to the city hall—through lanes of shouting thousands, who hold the visiting monarch and his family in high esteem for his courage and the bravery of his people during the trying four years and a half of battle.

## MAYOR TO GREET KING

At the city hall, Herbert Hoover and Ambassador Whitlock will greet the royal couple. Mayor Joseph will formally greet King Albert, the Queen and the eldest son of Belgium's ruling house. The mayor is scheduled to present the monarchs to many invited guests.

After meeting the king and queen himself, The consular service, federal judiciary, state supreme judiciary, appellate judiciary, local judges, supervisors, civic officials and reception committees will all meet the king, queen and prince in turn. Brief speeches will be made here by Herbert Hoover, Mayor Joseph and King Albert. A specially selected choir of school children will sing the Belgian national anthem under leadership of Antoine de Valley, officers from Oakland, Alameda, Berkeley and San Francisco will be presented the visitors by little girls from the four municipalities, after which the royal party will drive to their apartments in the Palace hotel.

Luncheons at the Palace and Hotel St. Francis will be the next functions, leading men and women of the bay cities attending the separate affairs—one of which will be a women's banquet for Queen Elizabeth and the other a men's luncheon for King Albert. Brand Whitlock will be the leading American guest at the St. Francis luncheon to the queen. Herbert Hoover and Admiral Rodman will be at the table of King Albert and the Duke of Brabant in the Palace.

**AUTO RIDE A FEATURE**  
In the afternoon the royal party will see San Francisco and the bay cities via automobile and in the evening will depart for the Yosemite. Service men, who served on Belgian soil during the desperate struggle for victory from the German hosts, are in demand. The committees ask them to be at the city hall on mass.

One of California's oldest and best-known citizens of Belgian ancestry is A. Vander Nalflen, chevalier of the Order of Leopold, who, with his wife, Mrs. L. Vander Nalflen, will meet the ruler of their native land. Mrs. Vander Nalflen has a similar decoration to that of her husband, King Albert recognizing her devotion to Belgian relief work during the war years. Vander Nalflen was awarded his medal thirty years ago in recognition for scientific attainments.

The streets of San Francisco are decorated profusely with the American and Belgian national colors. Bay city residents are expected to line the curbs by the thousands for this welcome to Belgium's heroic population, represented by democratic King Albert, his wife and heir.

## BERKELEYANS TO GIVE SCROLL TO KING AND QUEEN

BERKELEY, Oct. 12.—On behalf of the citizens of Berkeley, Mayor Louis Bartlett will tomorrow present to the King and Queen of Belgium a parchment scroll richly embellished in gold and bearing the city seal. The scroll is the work of the women who compose the Berkeley committee on Belgian relief. The top of the scroll is decorated with forget-me-nots and the bottom is enriched by poppies in the original color.

These words appear on the scroll:  
"Two generations ago the courage and faith of the world faced westward and came to these shores in search of gold. We, their children, salute the people of Belgium, whose fearless sacrifice for humanity and unconquerable will kept them true in the world's darkest hour and proved that worth greater than gold is found in the hearts of men."

"And we, the citizens of Berkeley, recognize in you, Albert and Elizabeth, the courage and fortitude that inspired and led your people, and you are loved and honored among us."

The scroll is signed: "Louis Bartlett, Mayor of Berkeley, California, This 14th Day of October, 1919."

# CALIFORNIANS ASK TARIFF ON BEANS

WASHINGTON, Oct. 12.—A tariff of from two to four cents a pound on beans to keep out Japanese competition, was asked by California bean growers before the House ways and means committee today.

This tariff is necessary because 65 per cent of the beans grown in America come in competition with the Japanese product, which has been coming to this country in increased quantity during the last few years. Aaron Sapiro, San Francisco attorney for the growers, said:

Sapiro asserted it cost seven cents a pound to raise beans, whereas, foreign competitors have forced the price down to six cents, because of the smaller labor cost in the Orient.

### Italians Observe Columbus Day City Officials Join in Ceremonies

**COLUMBUS**  
By Henry Meade Bland  
Dauntless he sailed upon his magic quest  
To link the golden East and mighty West.

No monster of the deep had terror for him;  
He sailed as guided by the seraphim.

The silent stars might change;  
but he held his great course across the trackless sea.

What largess unto man that starry night  
When the fair vision broke upon his sight!

What smile benign the sun cast o'er the world  
When that first sail was gently, safely furled!

Boldest of sailors since the world began  
He brought the vast and precious gift to man.

The land where goodly honesty and worth  
Have written a new life-lesson for the earth.

Italy's accomplishments in the world war were recounted yesterday in addresses that featured the celebration of Columbus day in this city.

when more than 2500 persons of Italian birth representing societies in all parts of central California joined in making the occasion one of the most important of its kind ever held here.

led by municipal and county authorities, a parade wended its way through the city streets at 2 o'clock yesterday afternoon, starting from Seventh and Henry streets. **Screen Star Robbed  
of Gems Worth \$1100**

Armed with a carefully prepared list of the property missing, the police are investigating a report of a robbery of the rooms at the Hotel Oakland, of Earl Williams, screen star, who is residing there with Mrs. Williams. Williams says that gems worth \$1100 were stolen from his room while he was at dinner. He furnished a complete list of the property.

The police say that the jewelry might have been mislaid rather than stolen, and are investigating.

And then the Pathe record lasts longer than any other record in the world because it is played by a round smooth sapphire ball that does not cut, gouge or rip the records like sharp pointed steel needles. # SOCIETY CHURCH HOME STAGE

## Several Big Dances at Country Club

Dances—large or small are the favorite mode of bringing one's friends together for a social evening nowadays. Not a social affair of any size is complete without the artistic diversion usually marked by an informal supper to follow or the formal dinner preceding. The Claremont Country club is to be the scene for many such gatherings the remainder of the month. Besides the coming out party of Miss Mora MacDonald, daughter of Mr. and Mrs. Augustin S. MacDonald on the 25th, the preceding night the Pi Kappa Alpha fraternity gives its party for about 125 guests.

October 15 is the date of the initial dance on the Claremont club members, several hundred to assemble on the auspicious occasion, when dinner owing to the renovation of certain sections of the clubhouse, will be served downstairs in the golfers' lounge.

October 21 the Sigma Delta Phi are to give a large dance for the University.

As far as the college set is concerned the most enjoyable party in view is the inter-society dance to be given the evening of November 1st, when some three hundred will be entertained. This annual event is one of the biggest of the year, which Miss Elizabeth Moore, Miss Dorothy Foster and several others are arranging.

The second and fourth Saturdays of each month after November are the dates decided upon for the regular dances of the Country club members.

## ACTRESS SMILES THROUGH TRAGEDY

SAN FRANCISCO, Oct. 13.—Betty Wright is an actress. Patrons of a local vaudeville house are willing to admit that this is the case in more ways than one. For this young woman smiles and brings cheer to her audiences even though tragedy weighs heavily on her own heart.

Her recently gained husband, William Edward Glenn Curtis, is wanted by the police. It is alleged that he came back marked "no funds." It is alleged that he posed as the son of Glenn Curtis, a real estate investor and manufacturer. Other things are alleged, too, but Mrs. Curtis or Miss Wright has heard enough already and is saddened thereby.

Insistent in his wooing at Portland, Miss Wright says, Curtis succeeded in marrying her October 2. They were very happy. The young man—stave and mainly—received many messages, according to the actress, which she said came from his father, the station king. Then came the returned check incident. Her confidence was not shaken. She promised the hotel management full payment in installments from her salary.

And now the police are searching for the young man on grand larceny charge. Miss Wright's happiness from his "father's" attention was shattered. She found it out—also learned that her husband had disappeared. That winter home in New York and that summer bungalow in Los Angeles—promises from the promising young man—will not develop.

But Betty Wright's art is supreme. Her part calls for smiles and lightness of steps. She smiles although her inner self cried out its sad plaint.

## Question Box Is Popular Christian Church Feature

The 8 o'clock services at the Fruitvale Christian church were conducted by the pastor, Rev. J. Webb, who took part in leading the singing. The feature of the service was the question box which Rev. Webb has had for his congregation, and which was answered last night, according to Bible teaching. Below appears some of the questions:

Q: Is it wrong to dance and go to shows Sunday? What do you think of dancing?

A: "Can Christians study the science of man and not be affected by it? Is a person believed in Christ and is not baptised—will he be saved?"

A: "Is capital punishment right or wrong?"

A: "Is it right to give the same punishment to those with good principles as those with bad?"

A: "What state will the world be in when Jesus comes again?"

A: "Is Heaven a place, or a condition?"

A: "Is it right for a mother to pull a boy's hair in Sunday school?"

Rev. J. Webb replied: "When I was a boy and got my hair pulled in Sunday school, I consider that this boy got off easy, and yet I have heart-felt sympathy for him, or perhaps I should say heart-ache. He advised me to give the mother in question an opportunity to repeat her admonitions."

## PSYCHOLOGY LECTURE

The Wednesday evening meeting of the Psycho Science organization is still being devoted to a series of lectures on "Applied Psychology." The subject last week was "The Psychology of the Criminal." Each lecture each evening brings with it a train of memories, so that at sight of an object we associate with it all we have ever known about it. The practical lesson brought out was that we should associate ideas of love, courage and cheer with every experience.

## FIRST CHRISTIAN

Rev. H. A. Vna Winkle, pastor of the First Christian church, spoke the subject, "The Task of the Church to a large audience Sunday morning.

"Christ said, 'Go and teach all nations.' This means more than merely subject Sunday school to church service," said Rev. Winkle. "The task of the church is to preach the gospel, but it has not been taught to those who need it. The church has not been able to attend church to do so. The church has not comprehended its full task and the main cause is because the whole church is not aroused. The church must be right in the affairs of the hour. It must preach the gospel to the masses on the streets. Whatever means are necessary to reach this end, the church must use them."

## 'Within the Law' At Fulton Distinct Triumph

Nana Bryant and Paul Harvey again demonstrated their versatility and mastery of the dramatic art yesterday afternoon in the roles of Mary Truitt and Joe Carson in "Within the Law" at the Fulton. It is a "hook" play, seen for the first time in Oakland, and only a few weeks ago the law and the people who manage to keep within the law are pitted against the lawless and the lawless against the law. The play is a distinct triumph.

As the honest girl who was wronged by the mistake of the law, Nana Bryant, portraying Mary Truitt, resolved to get even with the law. She was a girl of heart, and while she follows devious paths, she manages always to stay within the law. The play is a distinct triumph.

## Little Princess Takes You Back To Childhood

"Won't you bring back those happy days of childhood?" So they sing, on the stage of today, when they sing what perhaps is one of the most popular songs in the world—for it does what it does in every man's heart. The days of the old swimming-hole, the fairy story, the carefree youth, the days of today long to go back to, it even for a minute. That's a universal mood.

Well, the road back to yesterday begins at the lobby of Ye Liberty. The little Mary McCallister is the fairy princess who, by a wave of her wand, can carry one back for two enchanting hours, to the old days when she was a happy and carefree child, when she was a girl of heart, and while she follows devious paths, she manages always to stay within the law. The play is a distinct triumph.

## 3200 SCHOOL TEACHERS TO GATHER HERE

Educators Assemble to Exchange Ideas and Formulate Policies for Teaching Their Youthful Charges

**TIMES**—Today, Tomorrow, Wednesday, Thursday and Friday. **PLACES**—Oakland auditorium, Chabot hall, Technical High school, Berkeley city hall, Berkeley High school, Napa, Halfmoon Bay, Santa Rosa.

**PARTICIPANTS**—Thirty-two hundred school teachers and noted educators from all parts of the United States.

**DISTRICTS INCLUDED**—Cities of Oakland, Berkeley and Alameda and the counties of Alameda, Marin, San Joaquin, Contra Costa and Solano.

The "educational exchange" opened today in the Eastbay district. The customers are 3200 school teachers. Over the portals might be strung the luminosity: "What you ideas exchanged for new. Fresh enthusiasm on tap here. Bring in your old, last year's misconceptions and trade for a correct, 1919 make. How's your Americanism? Let us crank it up."

Americanism is the motif underlying all sessions of the convention, the third annual session of the Eastbay district of the California Teachers' association. Opening meetings were held today in Napa, Santa Rosa and Halfmoon Bay.

**SCENE SHIFTS TOMORROW.** Tomorrow the scene shifts to Alameda county. The convention will meet in the Oakland auditorium.

**TODAY'S SPEAKERS.** Speakers today were McAndrew and Miss Dobbs at Santa Rosa and Napa and Professor Voght at Halfmoon Bay. They were escorted to these places by William J. Cooper, superintendent of the Piedmont schools and president of the State Teachers' association, who has the convention program in charge.

The districts included will have their meetings at different times. Oakland will dismiss the schools of the city Wednesday and Thursday afternoons while sessions for this district are held in the auditorium theater.

The role of the teachers in the advancement of Americanization will be the special subject of the conferences. Dr. Burrows will speak on "Social Government and American Principles." At Wednesday session Professor Abbott will lecture on "The American Spirit as Revealed in Our Literature of the Past Twenty-five Years."

"The World Opportunity of the American Teacher" will be the subject of President McAndrew at the Wednesday morning meeting.

**MUSIC TO BE FEATURED.** Music will be a feature of the sessions and a special program has been prepared for the gathering. Thursday afternoon and the Berkeley High school. The arrangements are in the hands of Mrs. Minnie Mills, president, and Miss Estelle Carpenter, secretary of the music section of the State Teachers' association. Mr. McAndrew of the New York schools will speak at this session and Major Woodbridge will give an address on music in the army. H. B. Wilson, superintendent of the Berkeley schools will talk on "Motivation of Music Teaching."

One problem to be brought before the convention is the handling of teachers' salary funds in certain districts. In Alameda county, it is charged by the teachers that the trustees have not paid the teachers the full salaries owing to them under the state and county levies.

## The Reputation of "Caltex" Bifocals

"Caltex" One-piece Bifocals, the newest and most improved type of invisible doublevision glasses, have earned their reputation of superiority mainly through well satisfied wearers. Such a reputation is not the result of chance, but has been built up by many years of consistent adherence to the principle that every pair of these "Caltex" One-piece Bifocals must be as perfect in every detail as optical skill and science can make them.

## Co-ed Artifice Bared by Staff Of Girl Writers and Artists

Here are two of the editors of the woman's edition of the Daily Californian. (Left to right), MISS BETH CEREGHINO, sub-editor, and MISS MINORA McCABE, sub-editor. Below is a sketch of the co-ed as seen by a co-ed artist. They are (left to right), Haughty Brunette, Bolshevik, Pelican and Baby Doll.

## Daily Californian Vastly Improved by Touch of Feminine Genius

**BERKELEY, Oct. 13.**—Caricaturing members of their own sex as seen on the campus, combs at the University of California usurped the field of man today by turning editors and printers in issuing the annual woman's edition of the "Daily Californian," the student paper.

Featuring the paper as edited by the co-eds are a series of cartoons in which various "types" of the female of the species as seen lurking in college classrooms are exploited to the hilt.

Unlike Gaul, Miss Flora Smith, clever artist responsible for the cartoons, divided all co-eds into four parts. All others she classifies as "hybrids."

**CAPTIVATING BRUNETTE.** Under the name "Bubbles" Miss Smith pokes fun at her campus sisters in four cartoons depicting each of the types with a vivid description accompanying each.

The first type Miss Smith draws is a "haughty but beautiful brunette." "She has the end of a pink powder puff sticking out of her nose and a bunch of adoring seniors parked around her" is the description of "Bubbles."

Next in order is the "Bolshevik" type—"the kind that wears goggles and bobbed hair wildly but artistically arranged." "Looks like she forgot to comb it, but lets not be hard on her," says Bubbles. "She thought it expressed mental abandon or something Russian."

The "mannish" co-ed comes next for her share of prominence. This type Miss Smith dubs the "Pelican." Her requisites are described as ground grippers, masculine neckwear and "skinned back" hair to afford a "highbrow" look. "She must have been highbrow because I saw her travel across the room to look up a word in the dictionary," is the artist's comment.

Last in the order in the co-ed parade is the "baby doll." "No gathering is complete without her," says the co-ed artist. "For though she's the littles, she's not the least clever. She has a wide-eyed, innocent look, but she's a real beauty. A companion cartoon 'as he really is' shows a pug-nosed individual uncertain of feature and many beauty. From the fitful look to the serious do the co-eds go in an editorial from the pen of Miss Doris Peoples, the editor-in-chief of today's paper.

Not only did the co-eds manage the editorial end of the paper, but they turned proof readers and "make-up" men last night in getting the campus daily on the press on schedule time.

Following is the staff responsible for today's paper:

Doris Peoples, editor-in-chief; Aline Verrue, assistant editor-in-chief. Associate editors—Donna Watson, Louise Melville, Beth Cereghino, Minora McCabe, Faith Cushman, Edith Daseking. Sophomore reporters—Aileen Jaffa, Margaret Pope, Isabel Bayliss, Grace Armstrong, Marguerite Melvin, Elizabeth Halley, Cress Chedie, Helen Bell, Mary Siler, Catherine Weger, Kathryn Springborg, Virginia Stover, Freshman reporters—Elizabeth Radzowski, Marcell Radzowski, Josephine Rausch, Natalie Lowenthal, Noma Jansen, Loretta Street, Catherine McEnaney. Managerial staff—William Burt, manager; Gwendolyn Cochrane, Terys Deitle.

## CONFERENCES WITH CARMEN TO BEGIN SOON

Differences That Cannot Be Settled by Company and Platform Men to Be Referred to Arbitration Board

Arrangements for the conferences between officials of the San Francisco-Oakland Terminal Railway and their platform men were to be made today as the initial move, subsequent to the return of the men to work after their eleven-day strike, to adjust the demands for which they struck. It is expected the first conference will be held tomorrow night or Wednesday.

According to F. O. Edgerton of the state railroad commission, which was instrumental in re-establishing the entente between company and employees, the commission's participation in the matter is at an end. He said:

"The commission intervened in the strike in the interests of the public and in the preservation of transportation. The commission is not vested with power to act as a board of arbitration."

**ARBITRATION LATER.** Upon all points at issue the representatives of the company and employees will attempt to bring about a settlement in the series of conferences being planned. The residue of issues which cannot thus be settled will be submitted to a board of arbitration composed of a representative of each side and a third member chosen by these two.

That the eight-hour day will be one of the first matters brought up was the belief of company representatives today. Both this and the matter of higher wages are expected to be left to the arbiters. There was a report after the Saturday session of the strike, however, that they had been unofficially given to understand they would receive the eight-hour day without opposition from the company. There has been no confirmation of this report.

**ON REGULAR SCHEDULE.** Normal service was achieved on all lines of the system yesterday, including the Key Route as well as the street cars. Saturday was largely given over to a resumption of service as near normal as possible, and the heavy crowds of Saturday afternoons were handled with little difficulty. By yesterday and today, however, cars were running on regular schedule in all parts of the Eastbay. To compensate commuters for the portion of the month in which Key Route trains have not been run the company has offered commutation looks at a proportionately reduced price from now to November 1.

## Alaska Mining Law Upheld by Courts

**WASHINGTON, Oct. 13.**—Constitutionality of the Alaskan legislation act of 1915, requiring the filing of affidavits showing that the annual assessment work has been done in mining claims, was in effect sustained today by the Supreme Court, which declined to interfere with the conviction of G. A. Vedin, at Fairbanks, under this statute. Vedin was sentenced to three years' imprisonment.

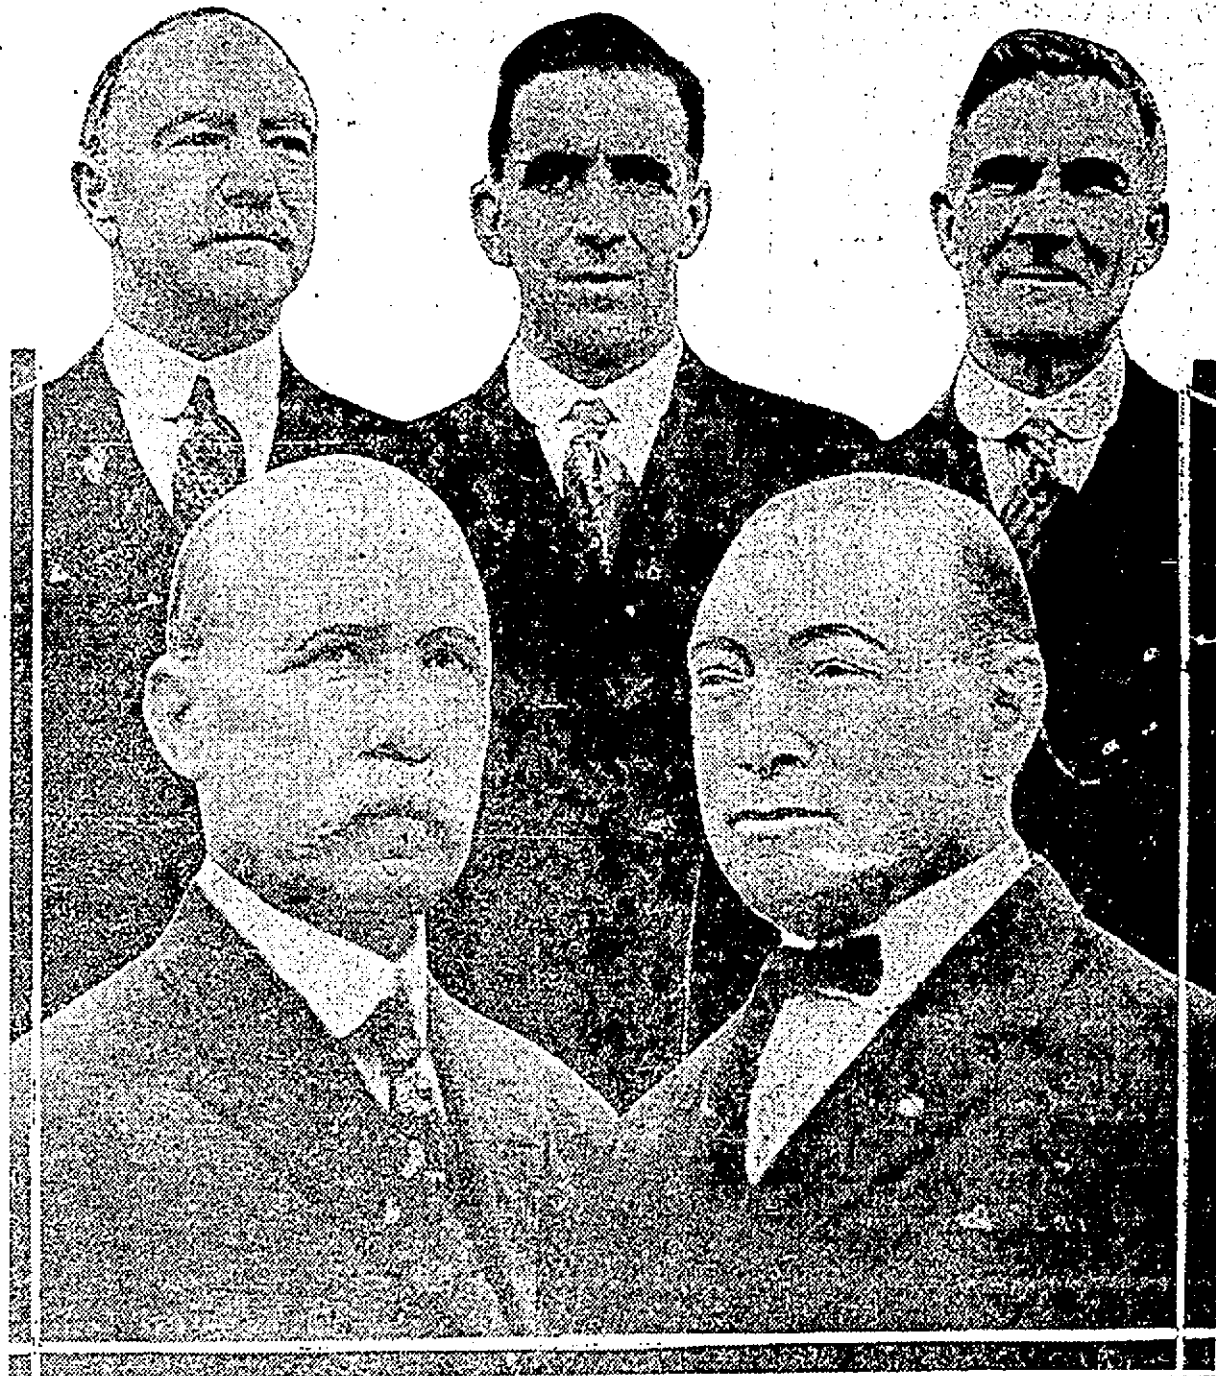

## Freshen up for Fall with a few cans of paint

It's astonishing how new and clean looking you can make your home by repainting floors, woodwork and the pieces of furniture that show wear. The trifling investment in paint and time is not to be compared with the satisfaction you will feel with the results.

If you doubt your ability to use paint properly let us give you a book called "The A. B. C. of Home Painting." The instructions are easy to follow, and with Sherwin Williams Paint you cannot fail.

## DR. ROBERTS' LOVE TAUNT IS REVEALED

Alleged Murderer of L. A. Physician Declares Roberts Said: "Your Wife Has Already Given Me Her Love"

**LOS ANGELES, Oct. 13.**—Ready to tell, if necessary, the story of her friendship with Dr. Ernest E. Roberts, of Sawtelle, Mrs. Josephine Stokes will do all in her power to clear her husband, Captain Charles Lawrence Stokes, of the charge of murdering Roberts last Thursday night. Half a dozen of the many interests that surround Captain Stokes are preparing today to invoke in his defense the unwritten law, declaring unequivocally that he killed Dr. Roberts when the latter declared he had won Mrs. Stokes' love.

The killing occurred between Los Angeles and Sawtelle. On the evening of the tragedy, Captain Stokes came home from lodge to find Dr. Roberts' car before his house and Dr. Roberts stepping into it. Stokes hurried for a club and a revolver. He returned with both to the car. He beat Roberts with the club so severely that, he said, the physician asked him to drive him home, promising never to return again to the Stokes residence.

Captain Stokes climbed into the machine and took the wheel. On the strange ride of these two mortal foes there came an interruption. Whether Stokes or Roberts suddenly whirled the steering wheel is not known.

**ROBERTS RUNS AWAY.** "The car veered and started to overturn," declared Stokes today in his cell, "and I jumped. Roberts was thrown out and got up on the run. I gave chase for perhaps a hundred yards, when he fell. Even then I had not intended to kill. But he looked back at me and said: 'Why don't you get a divorce, you fool. Your wife has already given me her love.'"

Mrs. Stokes is a woman of striking appearance, tall and graceful, with masses of Titan red hair and blue eyes. When she talks of the tragedy that has come into her life it is in a quiet, self-contained way, without the suffering she has endured and is enduring is easily sensed.

"I see now that I made a mistake, but one does not always realize these things until it is too late," she is quoted as saying. "Now I can only regret it. I will stand by my husband through the whole trial. He has been a good, loyal husband to me and a good father to our children. I never dreamed that he would do what he has done."

## Ducks Plentiful in Rice Fields at Bunker, is Report

Duck hunters of the bay cities are preparing for the opening of their season of activity next Thursday, es-

Rodabaugh, at the main office of that Shafter and Portland street, expects that Buckner, the rice field, of which thousands of ducks have made rendezvous, will be the chief mecca of the zimrud.

Good sport is expected to exist at Millar, Saxon, Rio Vista, Colusa and Gridley, according to Rodabaugh. In Dutch Slough, where the mortality rate has been made for hunters. ## World Series Cut

CHICAGO, Oct. 13.—Members of the New York Yankees may be a long time in getting their third place prize money, but they will get it and may have to be content with no share whatever in the earnings of the World Series.

The Detroit club, it became known here today, has filed a request that all games of the World Series be played at Detroit. The Detroit club is out on the ground that Maye is under suspension by the president of the league and that the Yankees are therefore illegal. If these games are thrown out Detroit would win three of the four American league standings for 1910.

The protest of the Detroit club may lead to a new arrangement in which the Yankees would be paid in advance the third place money for an indefinite period. Ordinarily the mat-

Whether the National commission will feel justified in acting on a dispute concerning the internal affairs of the American league is a question as yet and the matter may have to drag along until the Maye case is settled in court and Johnson is once more free to go.

McClain told the ball to first base in time to retire the boy, as he was playing on the third base and picked the ball up on the first base line. Fans were wondering how he was able to get to the field to field the ball. But McClain, who had not secured a hit in his third inning but got on base on a home run, was able to get to the field through with a just in time banger for his second hit and drove home Gillespie and Mulebush, who finished the scoring. The last schimpf flew to Paulino for the last out.
